Engine

Cummins QSF3.8 engines achieve EPA Tier 4 Final standard by combining Cummins Diesel Oxidation Catalyst with Selective Catalytic Reduction (DOC-SCR). The DOC-SCR system utilized by the QSF3.8 engines to offer a common aftertreatment solution from 75 hp to 400 hp (56 kW to 298 kW). For certain applications, Cummins QSF3.8 can also be paired with an SCR-only aftertreatment system.
